Learning Objectives

1. Participants will learn the ways Hip Hop inherited Black cultural art forms from African American, African, Latin American and Caribbean musical and literary art forms in order to develop into its current instantiation as a global cultural and musical force.
2. Participants will learn about the empirical support for Hip Hop with youth including outcomes related to clinical practice, education and pedagogy as well as civic engagement.
3. Participants will learn some methods/examples of incorporating Hip Hop into intervention and prevention with youth in the child welfare system.
